Care Instructions

Storage The gloves should be stored in a dry and clean place.

Disposal Defective and/or used gloves can be disposed of in general waste.

Service Life The service life depends on the degree of wear and the use intensity in the respective areas. Temporal information on service life is therefore not possible.

Restrictions These gloves do not protect against chemical, bacteriological and electrostatic hazards. Do not use when working with rotating parts. **Wear and tear can reduce the protective properties of the gloves, so regular inspection is recommended.**
