Care Instructions

Storage | The gloves should be stored in a dry and clean place.

Disposal | Defective and/or used gloves can be disposed of in general waste.

Service Life | The service life depends on the degree of wear and the use intensity in the respective areas. Temporal information on service life is therefore not possible.

Restrictions | These gloves do not protect against chemical, bacteriological and electrostatic hazards. Do not use when working with rotating parts. **Wear and tear can reduce the protective properties of the gloves, so regular inspection is recommended.**
