## CAP LAMP PLINTH

The Cap Lamp Plinth is a two piece lighting solution made from hard wearing industrial plastics.

It has been precision designed to fit to the front of Pacific's F15 in place of a regular helmet plinth while the cord retention clip slides into the Pacific Easi On Off Base (EOB), part of the side adaptor plates.

**A. 2 PIECE SET.** Supplied as two pieces, plinth (i) and Easi On Off Base (EOB) cord retainer (ii).

**B. MADE FROM DURABLE INDUSTRIAL PLASTICS.**

**C. PACIFIC F15 COMPATIBLE.**

**D. LIGHTING SOLUTION FOR UNDERGROUND MINING APPLICATIONS.** Attach the Adaro L.50 Cap Lamp (iii) or the ALFA WL Cap Lamp to the front of a Pacific F15 in place of a regular helmet plinth.

*The F15 Cap Lamp Plinth is pictured with the Pacific F15 and Adaro L.50 Cap Lamp - these items are sold separately.*

## COMPATIBLE CAP LAMPS
