

## PACIFIC HELMETS 'RESCUE' EYE PROTECTOR

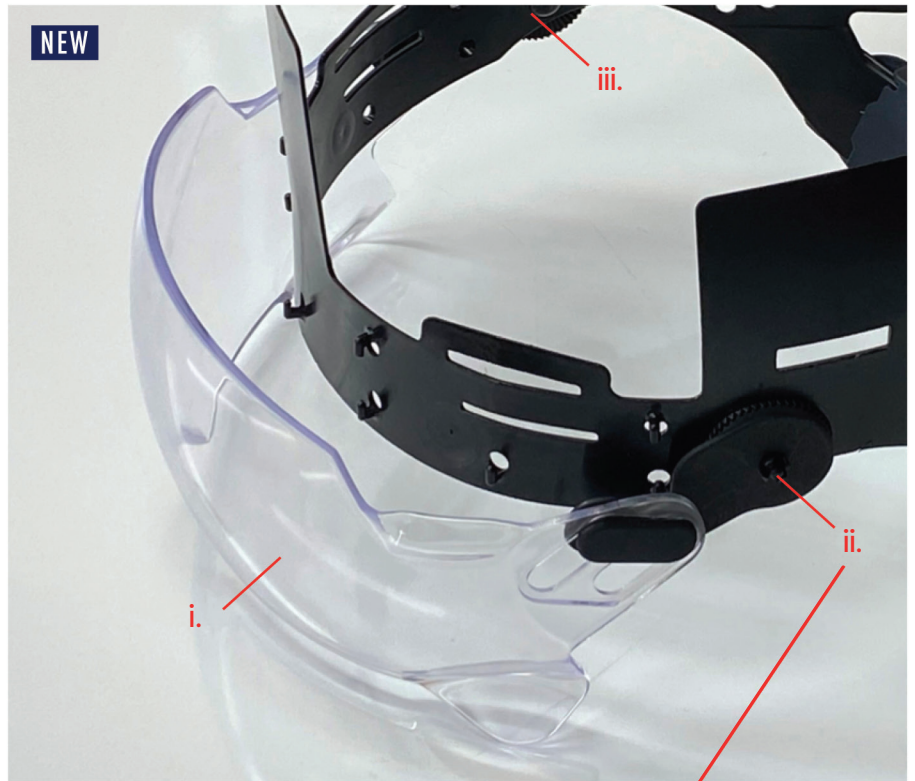

The Rescue Eye Protector is an innovation from Pacific Helmets designed for select models of the R6 'Challenger' and 'Dominator' multi-purpose helmets.

The shape of the Rescue Eye Protector (i) has improved side particle protection that exceeds the most stringent standards, including AS/NZS 1337 (Personal Eye Protection: eye and face protectors for occupational applications).

It has been designed to integrate with the helmets headband (iii) - where previous models of eye protection have mounted to the helmets shell. A ratchet hinge (ii) controls deployment of the eye protector.

The sliding hinge design allows the user to control the distance the Rescue Eye Protector is deployed from the face, introducing compatibility with a large range of spectacles.

Pacific's Rescue Eye Protector will stow up inside the shell when not in use.

PRODUCT SPECIFICATIONS	
Product Code	B2109543
Application	Eye Protection* <i>*in select models of R6C 'Challenger' and R6V 'Dominator'</i>
Certification	AS/NZS 1337.1 2010
