

PACIFIC FIRE LIGHTER DRIP TORCH

The Pacific Fire Lighter Fixed Wand Drip Torch is an excellent tool for burning out and fire line ignition.

A. LARGE FUEL TANK 4.5L capacity. Constructed from extruded aluminium tube.

B. DURABLE HANDLE. Made from 25mm x 1.6mm aluminium then welded to the body.

C. FUEL TRAP LOOP prevents flame traveling up the wand internally and into the fuel storage tank.

D. FLASH BACK VALVE prevents ignited vapours travelling back up the wand into the fuel tank and causing an explosion

D. FLASH BACK VALVE prevents ignited vapours travelling back up the wand into the fuel tank and causing an explosion.

E. FUEL CONTROL TAP allows operator to quickly and easily shut off the fuel supply when required.

F. LARGE FILL POINT 55mm wide. Provides clear view into the tank to prevent overfilling. Sealed with die cast aluminium threaded bung and Viton O ring.

G. FIXED WAND eliminates wand 'spinning'. Includes flashback valve.

H. SPECIALISED WICK 12mm stainless steel and a fibreglass filled wick covered with galvanised perforated steel sheeting.

I. BLEED SCREW allows a measured amount of air into the tank so facilitating fuel flow through the wand.

J. COLOUR fuel tank powder coated shamrock green in line with AFAC approved colouring for fuel storage containers.

PROUDLY MADE IN AUSTRALIA

PRODUCT SPECIFICATIONS

Product Code	BCRPFL FW G
Application	Wildland Firefighting
Certification	AS/NZS 2906:2001
Capacity	4.5L

SPARE PARTS DIAGRAM

		
PRODUCT CODE BCRPFL100	PRODUCT CODE BCRPFL010	PRODUCT CODE BCRPFL011
