

AFFORDABLE EYE PROTECTION FOR WILDLAND FIREFIGHTERS

Pac Fire's Helmet Mounted goggles are heat resistant, durable and flexible.

The foam bound, non-vented goggle body moulds to the face, increasing comfort while preventing smoke and other airborne contaminants entering to impede vision.

This wide vision, low profile goggle design enhances eye sight, accommodates multiple facial sizes and is compatible with other PPE such as Pacific Helmets.

- Wide vision and low profile goggle
- Accommodates multiple facial sizes
- PPE compatible
- Excellent clarity with no optical distortion
- Non-vented to prevent smoke or airborne particles entering the eyes
- Quick release strap clips for easy removal - even when wearing gloves
- 100% UVA / UVB protection for outdoor use
- FR frame, lens and straps
- Soft wrap-around TPV body for higher heat resistance
- Foam bound to aid in sealing
- Clear, polycarbonate, anti-static lens
- Anti-scratch and anti-fog properties
- Replacement straps available
